Train over Bumper and Through Cigar
Stand this Morning—Big Crowd
Was Waiting for It.

Boston, Aug. 26.—Several people were hurt this morning when a New York, New Haven & Hartford train which was being backed into the South station crashed through the gates and into the station platform. A crowd of 400 people was standing in the open space waiting for their trains and the most of them were preparing to board the train which was wrecked. It was a special excursion train for Newport and was being backed in on track 16.

It came with such force that the bumper at the end of the track furnished little resistance and the train then ploughed through the gates and passed through a cigar stand about which the crowd was gathered there. The people were thrown into a panic and many of them were injured. Eight bystanders were removed to the hospitals for treatment. It is not believed that any of them were seriously hurt.

Kept on Track Remainder
of Season.

Cleveland, Ohio, Aug. 26.—Hamburg Belle defeated Uhlman in two straight heats in their matched race at North Randall yesterday and also set a new world's record for a trotting race and for the fastest two heats ever trotted. The new record for a mile is 2:01 1/4, and was made in the first heat of the race. The former record of 2:03 1/4 was held by Crescous. The stallion made the record in a match race with the Abbott at Brighton Beach in August, 1901.

Sweet Marie formerly held the record for the fastest two heats trotted having made a mile in 2:04 3/4 and 2:08 3/4 at Syracuse, N. Y., September 12, 1906. Hamburg Belle's time is 2:01 1/4 and 2:01 1/4.

Immediately after the first heat Hamburg Belle was sold to H. M. Hanna of this city for \$50,000, by Edward and Joseph Madden, owners of the mare and sons of John F. Madden. Mr. Hanna will permit the mare to finish her season, including the series of races of two heats in three between the mare and Uhlman. The race yesterday counts as one of the races, the second will be run at Readville, Mass., September 3, and if it is necessary to run a third race the meeting place will be selected later.

SUICIDE SUSPECTED.

District Attorney at York, Pa., Found
Dead in Stable.

York, Pa., Aug. 26.—District Attorney William L. Ammon of this city was found dead in the loft of a stable in the rear of his home yesterday. The cause of his death is surrounded with mystery. Doctors who examined the body declare that death was caused by heart trouble. Tuesday night he purchased at a local drug store one pound of cyanide of potassium, announcing at the time that he wished to use it in making experiments with copper. He complied with the formality of the law regarding the sale of poisons, by signing his name to a certificate in the presence of the drug clerk. A search for the poison he purchased has failed to reveal its whereabouts.

Mr. Ammon was 41 years old and was elected district attorney of the county in November, 1907.

For fifteen years prior to the fall of 1908 Mr. Ammon was secretary of the Standard Building and Loan association of this city. Ammon had custody of the association's funds while in office. D. V. Johnson, an expert connected with a Philadelphia firm of accountants, had been recently employed to go over the accounts of Ammon. Mr. Johnson yesterday issued a statement in which he said:

"I have discovered the fact that the funds of the association had been systematically misapplied by the former secretary, W. L. Ammon. The examination has not been completed, so that the extent of the embezzlement by the secretary cannot be approximated, but as the work proceeds the amount grows larger. After interviews with Mr. Ammon, one of which was Tuesday night, he offered no explanation and admitted the shortage."

mitted Suicide

AS HE HAD TOLD HIS WIFE

Husband Had Told Her He Would Kill
Himself if She Went to Band Con-
cert—She Went: He Shot
Himself.

Rutland, Aug. 26.—Hayes Ingalls, 32 years old, shot and fatally wounded himself at his home on East street about 9:30 o'clock last night while his wife was attending a band concert in Main street park.

Before Mrs. Ingalls left for the concert he told her he would commit suicide if she went, but she placed no faith in his threat and leaving her year-old baby with Mrs. John McQuirk, who lives in the same house, she went to the park and knew nothing about the tragedy until she returned home.

Mrs. McQuirk says Ingalls came down stairs and kissed the baby as he lay in his cradle. He then went back to his room, and soon after a shot was heard. When neighbors entered the room they found Ingalls lying on the floor in the parlor. A 32-caliber revolver lay by his side, and the bullet which entered under the back and came out on the right side of the back, lay in the chair in which he had been sitting.

Ingalls was taken to the City hospital, where he died shortly after midnight.

SYRIAN IMMIGRANT
HAS TOUGH LUCKWalked into Barre, Minus the \$30 He
Brought to United States, and Sev-
eral Hundred Miles from Pitts-
burg, Where His Uncle Lives.

A young Syrian, named Tofek Hoggess, who recently arrived in New York from his native country, came into this city on foot to-day and with a hard luck story to tell. Tofek landed in New York a couple of weeks ago and was pleased upon leaving the boat to find one of his countrymen, who explained that he was a member of a committee detailed to attend to the wants of newly landed countrymen who were unused to the ways of language of the country.

Tofek explained that he had an uncle in Pittsburgh, Pa., to whom he was going. The friendly stranger asked him how much money he had and the unsuspecting youth replied that he had \$30. The stranger told the boy that the ticket to Pittsburgh would be three dollars more, but that he would lend him the amount to help him and that he could repay it when he reached his uncle's home. Mr. Stranger then gave the boy a ticket and took what money he had and put him onto a train, which the obliging stranger said would take him to Pittsburgh.

After riding a few miles the boy was surprised to have the conductor tell him to get off. The boy thinks he was taken to Troy. He was taken to a police station and after a day or two was started on foot toward Pittsburgh. In some way he got directions confused and landed in Bath yesterday. There he met a Frenchman and being able to speak a little French he learned from the Frenchman of the colony of Syrians in this city.

He got to Barre last night and found Alex. Corey. Mr. Corey immediately telegraphed to the boy's uncle in Pittsburgh and until he receives funds from the uncle he will be cared for in this city.

Dr. Mulligan received a number of bruises, none very serious, and Mrs. Mulligan was cut on the forehead. The chauffeur's neck and shoulders. The chauffeur's hurts were minor. The identity of the farmer whose wagon was responsible for the mishap has not been learned.

St. Albans, Aug. 26.—The surrounding country side is greatly aroused over the mysterious disappearance of Kenneth Boynton, the 12-year-old son of Gates Boynton of the town of St. Albans. The boy left home between three and four o'clock Monday afternoon saying that he was going to nearby woods after butternuts. On his way down he met two playmates who tried to get him to return with them. In answer to their questions as to where he was going, he said he did not know. At first not much was thought of his absence, but when night came and no boy, his parents became worried and frightened and asked the sheriff's office to keep a lookout. This has been done, and a trace of the boy has been found. He had about one dollar in money and also took a revolver.

The boy is medium sized rather dark, wears long striped trousers, blue flannel shirt and a black slouch hat and weighed 93 pounds. Many men and boys are making a thorough search of the woods and country herabouts to locate the missing lad. AUTOMOBILE ON FIRE.

Entire Fire Department Called to Dr.
Ghidella's Residence.

The entire fire department was called out shortly after nine o'clock last evening by an alarm from box 12 at the corner of North Main and Seminary streets. Upon arriving at the box the firemen found that the person who rang the alarm had fled, but it was explained that Dr. E. G. Ghidella's automobile had caught fire in his barn and that some person had rung in the alarm thinking the barn was on fire.

The cause of the fire in the auto, which is a Stanley steamer, was that the doctor left one of the lights in the machine burning and the bottom fell out of the lamp, allowing the oil, which caught fire, to spread over the woodwork and mud guards of the machine, igniting them. A well aimed pail of water extinguished the blaze in the car before the arrival of the department. It was at first reported that the gasoline in the car had caught fire, but this was found upon investigation to be untrue. The damage to the car amounts to a few dollars, probably not over ten.

The alarm last night was the first general alarm to which the department has responded in several weeks. A still alarm just before 3 o'clock yesterday afternoon notified the department of a chimney fire in a house on West street owned by the G. B. Durkee estate. A fireman with a hand chemical went to the house and the smudge was soon extinguished with no damage.

The hook and ladder company of the No. 1 station was out for practice last evening.
